VOL. III NO. 8

BLAIRMORE, ALBERTA, THURSDAY, FEBRUARY 23, 1911.

\$2.00 YEARLY

## THE CASH STORE

PHONE 13. POST OFFICE CORNER

A few days ago a prominent working man told us that The Cash Store had been of more actual benefit to the working men of Blairmore and district than all the schemes and oratory of Political Free Traders, Protectionists and Reciprocity Men. These men talk, whilst the Cash Store gives you cheaper food.

The following is a sample of our Politics and Economics :-

	Credit Price	Cash Price	Saving
FLOUR—Five Buses, Robin Hood, per 100 lb	\$3.75	\$3.50	7 1-2%
CREAM—St. Charles, family size, per tin	.15	.10	50 "
TEA—Blue Ribbon, per pound	.45	.40	12 1-2 "
MAGIC BAKING POWDER, per tin	.25	.20	25 "
DAIRY BUTTER per pound	.30	.25	20 "
RICE—Finest Japan per 3-lb sack	.25	.20	25 "
TABLE SALT 3 bags	.25	.25	33 1-3 "
CHEESE—Ontario best per pound	.20	.18	11 1-2 "
TOMATOES—Triangle brand, per can	.20	.15	33 1-3 "
FRENCH PEAS per can	.15	.12 1-2	20 "

Try a month's dealing, and judge for yourself.

## BLAIRMORE BRICK WORKS

Will Install More Machinery and Make Many Other Improvements.

WILL INCREASE THE OUTPUT

To About 60,000 Brick Per Day—For Which the Demand Is Ever Increasing

The demand for Blairmore brick is so great that the Blairmore Brick Works find it necessary to increase their plant so as to be able to cope with their ever growing trade. To meet this demand, the Blairmore Brick Works are about to install considerable machinery and to make all other improvements necessary.

By carrying out their plans, the Blairmore Brick Works will be able to increase their daily output from 40,000 to 60,000 brick. By the installation of this machinery they will also be able to make still better grade of brick which will mean that at Blairmore there will be manufactured some of the best brick used.

The local demand for Blairmore brick is even greater than last year. Already several large brick buildings have been planned and work will commence on these as soon as the weather will permit. Orders for our brick are not confined to Blairmore or The Pass but they are received from all the large places west. This building material of ours is used extensively on the Pacific Coast and several large shipments were made to Vancouver last year.

The speedy and successful growth of the Blairmore Brick Works is a proof of the capabilities of the gentlemen who are managing its affairs. Such an industry as this, sending its splendid product to large industrial centres, does considerably to advertise Blairmore, and is of inestimable value to what is destined to become a large manufacturing centre.

## Meeting of the Blairmore Village Council

The mayor and councillors met in the Hebe building at 8 p.m. on Thursday last.

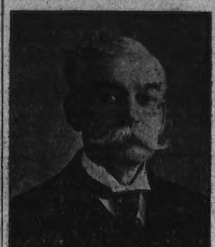

Communications from the West Canadian Collieries and the Blairmore Lodge, No. 88, I.O.O.F., were read. The former stated that they had no land to let village have for a nuisance ground, while the latter communication was regarding the rental of the I.O.O.F. hall for council meetings. These were ordered filed.

Tenders were received from W. A. Beebe and Mar On. The former was for land for dumping purposes and the latter for a site for fire hall. A committee was appointed to look over this property and report at next meeting.

Councillor Lyon thought it advisable to have street lights in Pelletier sub-division and on the street near the mine. The mayor promised to consider this matter and if those lights were badly needed, to have same put up as soon as an opportunity afforded.

Councillor Lyon informed the council that the Mercantile hall was then ready to be moved from

## Death of Robert G. Munro

After an illness of many months, there passed peacefully away at the Frank hospital on Monday night last, Robert Gordon Munro, B. A., B. L. Mr. Munro came to Blairmore from Durny, Nova Scotia, in June last upon the advice of medical specialists of the Acadia province. Owing to serious bronchial troubles he was advised to try the climate of Southern Alberta as a remedial course, whereupon he came to Alberta, and for several months began to show signs of improvement, until December last, his health failing him, he was obliged to enter hospital at Coleman for special treatment. About a month ago he was sufficiently recovered to come out of hospital, but was taken down again with a more serious attack of the disease, and was removed to the hospital at Frank. Since then he has been gradually wasting till he death reaper called him to his reward.

Deceased distinguished himself in the criminal courts of Nova Scotia, where he meted his professional success, for twenty-five years, and was known and esteemed all over that province. He was also a prominent member of the Independent Order of Foresters, was of a high and noble character and respected by all with whom he came in contact with in the West.

He leaves a widow, at present residing at Durny. At the request of Mrs. Munro, interment will take place at Blairmore Thursday afternoon, under the auspices of the Independent Order of Foresters.

## "Cup" Arrives

The cup presented by Thomas "Tiger" to the Crown's Next Pass Hockey League, arrived on Tuesday and is now on exhibition at the Blairmore Cash Trading Co's store. It is one of the handiest trophies yet put up for an athletic contest, and is something the league have every reason to be proud of. The cup will spend its first year in Coleman, having been won this season by the Coleman players. We congratulate Coleman.

## SEEKS \$15,000 DAMAGES

For Some Articles Which Were Recently Published in This Newspaper.

HARRY HOWARD CAUSED WRIT

To be Served on the Editor and Manager—License Was in J. E. Boyle's Name

To be exact, about 23 minutes to 2 o'clock on Saturday afternoon last, the editor and manager of this enterprise were each served with a writ of summons for having published in our issue of February 9th, articles about Harry Howard and the Cosmopolitan hotel.

As already stated, Harry Howard has been proprietor of the Cosmopolitan hotel for some time. On February 4th, much to the satisfaction of many of Blairmore's respectable citizens, the government suspended the liquor license which he had for his hotel, but which was issued in J. E. Boyle's name.

The parts of our article to which our friend, Mr. Howard takes exception are as follows: "Liquor license is suspended and the selling of booze is no longer allowed at the Cosmopolitan hotel. Many citizens are pleased and think the government acted very wisely in closing up that saloon." "In our opinion the government acted wisely in suspending this license and we have no hesitation in saying that we believe the town of Blairmore will be better off if liquor is never more sold at the Cosmopolitan hotel." And the third is, "Many of Blairmore's citizens will ever feel grateful to Mr. W. A. Deyl for his last great and noble act in suspending the Cosmopolitan hotel's liquor license."

The damages asked for by Mr. Howard amount to FIFTEEN THOUSAND DOLLARS. We are prepared to prove all of our statements, if necessary.

## Fire at Rocky Mountain Cement Works

At 11:30 o'clock, on Saturday last, fire was discovered in the large grinding room of the Rocky Mountain Cement Works. The flames shot upwards like great mountains and illuminated the town of Blairmore for several blocks around. Very soon many hurried from their beds to witness this great illuminary and to assist in fighting the flames.

The company's own firemen with two large hose soon had two streams of water shooting into the flames and prevented the fire from reaching the main building.

The cause of the fire is unknown but it is believed to have been due to an explosion which may have occurred in the pit where the finely ground coal was being thrown. The loss will not exceed \$2,000 all of which is covered by insurance.

Measothorium, a substitute for radium has been discovered. The "something just as good" is comparatively cheap and may be had at all leading drug stores for \$16,000 a grain.

## The Allen Players

The Allen players, so well known throughout the West for their good, clean, interesting and high-class operas, appeared at the opera house, Coleman, on Monday, Tuesday and Wednesday nights of this week. They were greeted by large crowds who were well delighted with the performances. Vera Feltos, displayed her marvellous talent in a manner that brought forth applause after applause from the interested audience. All the other players did their parts well. An early return of the Allen Players is hoped for by the most of the theatre-goers of this district.

Do you know that croup can be prevented? Give Chamberlain's Cough Remedy as soon as the child becomes hoarse or even after the croupy cough appears and it will even prevent the attack. It is also a certain cure for croup and has never been known to fail. Sold by dealers every where.

A red sunset foretells dry weather, because it indicates that the air toward the west, from which rains may generally be expected, contains little moisture.

## IN PAIN FOR YEARS

"FRUIT-A-TIVES" BRINGS RELIEF

"I suffered for years from headaches and pain in the back, and I consulted doctors and took every remedy obtainable without any relief. Then I began taking 'Fruit-a-tives' the famous fruit juice tablets, and this was the only medicine that ever did me any real good. I took several boxes altogether, and now I am entirely well of all my dreadful headaches and backaches."

(Signed) MRS. FRANK EATON, 500a box, 6 for \$2.50 or trial box, 25c. At dealers or from Fruit-a-tives Limited, Ottawa.

**C** RASH! Down the kitchen stairs fell the entire trayful of crockery from the dining-room. Not even the salt-cellar remained unbroken. Within the dining-room sat husband and wife, staring blankly at each other. What did it all mean? But this was a time for action, and the mistress rushed to the door. "Jane, Jane!" she cried, "whatever have you done?" Jane smiled. "Oh, mum," she replied, "it's only the dinner things, mum. What a good thing I hadn't washed 'em up!"

## That Reminds Me

A WESTERN bookbinder wrote to a house in Chicago, also a bookbinder. "I've just received a copy of Canon Farrant's 'Book of Hours' and I've shipped it to you at once."

Within two days he received this reply by telegraph: "No, sir, I've just received a copy of Canon Farrant's 'Book of Hours' and I've shipped it to you at once."

**C** ARIO, the illustrious singer, was engaged with Grist, his wife, at St. Petersburg. On walking one day with their children they met the Cant. His majesty nuzzled the children on their heads, and remarked to Grist: "I suppose these are your little Gristettes?" "No, sir," she replied, with ready wit, "they are my little Marionettes."

THIS is an extract from a Siamese paper that has an English column for foreign readers: "Shooting Outrage—O Fearful Agony—Kluon Tong was a man of Langoon and on his return accidentally shot at by some mischievous second-rate. Utterly death, oh fearful! All men expressed their mourning. The crown was still at large."

**A** N aeronaut, leaning over the edge of the car as his balloon was slowly passing over a football field, overbalanced himself, and fell plump among the players. When he recovered consciousness he found several of the club officials bending over him anxiously. "Ah," said the treasurer, in a tone of relief, "I'll trouble you for your half-dollar now, old fellow!"

**I** N North Carolina a white man was arraigned for stealing chickens from a negro. The jury was composed of seven white men and five negroes, and one of the latter was made foreman. They came into court and the clerk demanded: "Have you agreed on a verdict?" "Yes, sah," replied the negro. "De jury an gone Democrah, sah, and de prisoner am not guilty."

**T** HE enthusiastic angler was telling some friends about a proposed fishing-trip to a lake in Colorado which he had in contemplation. "Are there any trout out there?" asked one friend. "Thousands of 'em," replied the angler. "Will they bite easily?" asked another friend. "Will they? Why, they're absolutely vicious. A man has to hide behind a tree to bait a hook."

**R** EPEAT the words the defendant used," commanded counsel for the woman plaintiff in a case of slander being tried in the First Criminal Court of Newark recently. "I'd rather not," haughtily replied the defendant. "You were hardly words to tell to a gentleman," asked one friend. "Thousands of 'em," replied the angler. "Will they bite easily?" asked another friend. "Will they? Why, they're absolutely vicious. A man has to hide behind a tree to bait a hook."

**O** NE day a Scotch and English boy, who were fighting, were separated by their respective mothers with difficulty, the Scotch boy, though the smaller, being far the more pugnacious. "What garded ye fight a big laddie like that for?" asked the mother, as she wiped the blood from his nose. "And I'll fight him too," said the boy. "If he says Scotchmen wear kilts because their feet are too big to get into trousers!"

**T** HE militia boys were going away to camp on the morrow, and as Lieutenant Wellington Grist could part with his sweetheart on the piazza, she said, "I shall stand here tomorrow as you march past, and throw kisses at you."

**P** ills That Have Benefited Thousands.—Known far and near as a sure remedy in the treatment of indigestion and all derangements of the stomach, liver, and kidneys, Parnele's Vegetable Pills have brought relief to thousands when other specifics have failed. Immense testimonials can be produced to establish the truth of this assertion. One tried they will be found superior to all other pills in the treatment of the ailments for which they are prescribed.

Don't see soldier-lover said, "No, no, I do that!"

"Why not?" she asked. "Because," laughed he, "I can't see you hit the captain."

**T** HE old family physician being away on a much needed vacation, his practice was entrusted to a recent medical graduate. When the old man returned, the youngster told him, among other things, that he had cured Miss Ferguson, aged six, a wealthy patient of her chronic indigestion.

"My boy," said the old doctor, "I'm proud of you; but Miss Ferguson's indigestion is what put you through college."

**T** WO men were occupying a double seat in a crowded car. One of them was a long-distance whistler and the other was evidently annoyed. "You don't seem to like my whistling!" said the noisy one, after a five-minute continuous performance. "No, I don't," was the frank reply. "I continued the other, 'maybe you think you are man enough to stop it?' 'No, I don't think I am,' rejoined the other, 'but I hope you are.' And the whistling was discontinued."

**A** S one of the White Star steamships came up New York harbor the other day, a grimy coal barge floated in front of her. "Clear out of the way with that old mud scow!" shouted an officer on the ship.

A round, sun-browned face appeared over the cabin hatchway. "Are ye the captain of that vessel?" "No," answered the officer. "Then speak to yer equals. I'm the captain of this!" came from the barge.

**A** T a marriage service performed some time ago in a little country church in Berkshire, when the minister said in solemn tone, "Will you have this man to be thy wedded husband?" Instead of the usual answering for a guff man's voice answered, "Oh, well, yes, I will." The minister looked up, very much perplexed, and paused. He repeated the sentence, and again the same gruff voice answered, "Oh, well."

Again the minister looked up, surprised, not knowing what to make of it, when one of the groomsmen at the end of the row said, "Er, be deaf. Oh, be answerin' for 'er."

**I** DO think," said Mrs. McGonagle, "my husband is the most persistent, argumentative, obstinate fellow I ever saw. He'll controvert any proposition no matter what it is. This morning while we were waiting for a car, he said the sign 'Out of Order' on one of those chewing gum not machines. 'I'm willing to bet a cent it isn't out of order,' he said. 'And he dropped a coin in the slot. He didn't get any stick of gum, and he didn't get his money back. 'There, I said, 'I hope you're satisfied now.' 'That doesn't prove anything. All right, it's built that way on purpose.' 'But that's Lysander all over.'"

## With the Horses

**T** HE harness horse racing season is now fairly under way, and it is unfortunate that the two most important meetings, those at Lis-tovel and London, clashed in the same week. There have already been some exceptionally good racing and more than one high-class horse has been seen.

The feature of the London meeting was the chestnut pacing gelding Tom Dillard, owned by Mr. H. R. Dillard, of Blenheim, Ont., and driven by the young Canadian reinsman, Del Peters. Tom Dillard was known to have a world of speed, as he has his credit the Canadian record for a half-mile on the mile track, 1:02, made at Shawville last year. He was raced a little on the ice last winter, but on account of illness early in the season did not do himself justice. The fact that he won two races during the London meeting and took a record of 2:17 1/4 without getting to the limit of his speed, stamps him as one of the best pacers of the year.

Another pacer of prominence is the bay stallion Forest Pointer, owned by Arnold Bros. of Toronto, and the stable of the well-known trainer, Jas. McPhoe. This horse reduced his record from 2:18 1/4 to 2:17 1/4 at Seaforth, and was a winner again at London.

The trotting mare Mattie Bryon, owned by Prunty & Mann, South River, Ont., and that was a repeated winner on the ice last winter, has won each of her two starts to date this year and now carries a record of 2:21 1/4, which she is without doubt able to reduce materially.

The only performer during the Lis-tovel meeting was the grey gelding Billy W., that took a record of 2:22 1/4, but plainly able to go much faster. This horse is owned by Messrs. Colman & Govenlock, of Seaforth, and as he is by that well-known sire of pacers, Sir John, and out of a mare John Danvers, second dam of Terror (thoroughbred), thus giving him a double infusion of the thoroughbred blood, and making him bred on similar lines to the dead Fern Coffee, 2:05 1/2; it is not unreasonable to say that he will be quite prominent in his future races.

Of Canadian horses that are racing abroad, the stallion Hal R. Jr., and the mare Wild Patches, have both won at the same meeting at Seaforth. Hal R. Jr., took a select field of side-

wholes into camp, and also took a record of 2:11 1/4, which, considering it is his first record, is meritorious indeed. This horse is owned by J. E. L. Baskin, of Selkirk, and is in the stable of Jimmy Eason, who is considered one of the best of Canadian drivers.

Will Patterson, that took a record of 2:23 1/4 at Pontiac, is a daughter of Hal Patches, 2:15 1/4, owned by Mr. Caleb Wheeler, of Chatham, Ont. This mare has also raced on the ice last winter, but did not meet with much success, as she did not appear to take kindly to the cold weather racing. However, her present success is no surprise to those who saw her finish second to the "cream puffs" pacer Major Macgregor, when she took a record of 2:15 1/4 at London last fall, and in which race she stood first in the summary than Hal R. Jr., that got third money.

The mile track racing has not yet begun, but when it does, the crack Canadian representatives, The Eel, 2:02 1/4, and Darkey Hal, 2:02 1/4, will be found holding their own with the best pacers that are racing.

Our attention has been called to the fact that we overlooked a very great Ontario bred when mentioning the names of a number of thoroughbreds that have been foaled in the Dominion of Canada, and that had demonstrated the same the usual amount of quality. The horse we refer to is the gelding Denham, a six-year-old chestnut by Percival, foaled in 1897, owned by the Valley Farm Stable, Hamilton. Denham's sire and dam are also owned at Valley Farm with his war record.

As a three-year-old Denham signalled his entry into the racing game by winning a mile in 1:59 at Port Hope in 1907, and this stands as the record for Canadian bred horses. His most notable performance, however, was the defeat of the "Big Train," Jack Atkin, during the recent meeting at Hamilton, and it was at the Schreiber horse's favorite distance, six furlongs. Denham beat the big horse every inch of the way, and won comfortably, running the race in 1:11 4/5, which is within one-fifth of a second of the Canadian record, held by Diamond, and is two-fifths of a second faster than the former track record at Hamilton.

Denham has been unfortunate in his racing experiences for the reason that to get him to the post, but as he is in without doubt the speediest of the many good thoroughbreds that have been foaled in the Dominion of Canada. In this same connection it is also mentioned the grand little mare Kelpie, a product of the Valley Farm, which, although light in stature, possesses the heart of a lion and limbs of steel, and has to her credit the Canadian record at two miles and a quarter, and has repeatedly demonstrated that she is entitled to be classed among the best of Canadian horses.

**P**ROFESSOR WOODBRIDGE RILEY of Vassar, suggests that young women should regard marriage as a profession.

"Of course, I don't mean by that," said Prof. Riley recently, "that a young woman should sell herself. I mean that she should use her brain in marrying." "The sentimental idea of marriage so prevalent today—letting marriage come about of itself, so to speak—that idea seems to me as childish and foolish and lay as the old lady's idea of spelling."

"You know, my dear, when I don't hear how to spell a word I undercode it, like this. Then, if it is spelled wrong, it passes for a good joke, and if it is spelled right it doesn't matter."

**T**WO London speculators were discussing the rubber boom, and the question naturally arose as to how long the upward movement was likely to be maintained.

Red, Weak, Wary, Watery Eyes. Suffer By Marasmus, Neuritis, Myopia, Strabismus, Etc. Write For Free Booklet. Free. Maurice Rye Remedy Co., Toronto.

One of them, who has done very well, was inclined to be somewhat pessimistic.

"You know," he observed to his friend, "something will come along and put this boom to rest. It is just a matter of time or an outbreak of war it will be done among the rubber trees, which, I'm told, once started, sprouts like wild fire."

"Ah," retorted his friend, "the disease question is certainly a danger. But I'm all right as regards that. The company I'm heavily interested in hasn't started planting yet!"

**N**O ASPARAGUS IN THE U.S. YES, ah," says the waiter, not the French, Italian, German or Russian waiter, but the plain American kind, "we've got some nice grass today."

So, also, the plain-American grocer, in taking the household's order for the week will put down on his tab "two bunches grass" without being conscious that he is using any abbreviation.

These two signs preface, we believe, the passing of the word "asparagus." Country people have called it "grass" for generations, but when it begins to take a firm root in the dictionary of the city, the shorter and uglier word seems to be undermining for keeps the position of its longer compeer. These symptoms tell of a ground swell of usage that is going to sweep the boards clean some day.

It may be that "asparagus" will be preserved as one of the caste words of table aristocrats. It may be used in our Very Best People use "motor" when they mean "car." But it will not retain its vigor. It will become a pale shadow, while "grass" will do its work in the every-day life of America—Chicago Evening Post.

**A** PILI That is Pried—There have been many pills put upon the market and pressed upon public attention, but none has endured so long or met with so much favor as Parnele's Vegetable Pills. Widespread use of them has attested their great value and they need no further advertisement than this. Having firmly established themselves in public esteem, they now rank without a peer in the list of standard vegetable preparations.

## News of World-Wide Interest From the Canadian Metropolis

(From Our Own Correspondent.)

Montreal, Feb. 22.—The confidence of Europe in Canada's growth, her natural resources, her developments and her activities in many spheres, is becoming stronger every day, and it is likely that this spring the influx of foreign money, of foreign investors, and of foreign settlers to this country will surpass all records.

Early this spring two campaigns are to be commenced. One is to be against "the worldliness of Montreal" and the other is to be against the liquor trade. The first will extend to the city only. The second will start in Montreal, then branch out to the provinces and eventually cover the whole of Canada. In spite of an increased police force, in spite of a morality squad, in spite of the work of private individuals and societies, it is alleged that Montreal is becoming more immoral and less godly every day. The liquor crusade will be directed by the officers of the Dominion Alliance who, despite many setbacks, have been successful in closing up some of the resorts in the city.

Sheldon is still a live issue. It will be remembered that Sheldon was the get-rich-quick gentleman who fleeced the public of a good round sum and then made his escape to parts unknown. Sir Lomer Guin speaking in the House at Quebec the other day, practically admitted that the authorities had been unable to locate him, and that although the detectives have been sleuthing him for weeks at the cost of some three thousand dollars, they never brought in any results. A newspaper now makes the offer of a reward of a thousand dollars and all legitimate expenses to any newspaper reporter who will locate Sheldon and cause his capture for trial.

Sir Louis Jetté, Chief Justice of the Court of King's Bench has just completed thirty years of active public service. He is entitled to and will receive on full pension. The Hon. L. E. Brodeur, Minister of Marine and Fisheries, has been mentioned for the position. So have several other Liberal lights. But it is understood that Sir Wilfrid will not go outside of the present judiciary for the appointment, and that Judge Lavigne, the oldest sitting member of Sir Louis's court, the father of the Berry Armad, the Nationalist leader will get the post.

Senator Landry's question in the Senate concerning American spies at Quebec during the Tercenary has caused no end of talk, especially in military circles. It has also recalled the fact that Canada, with the exception of her Corps of Guides, has no secret service of any account. In times of peace, do all the government sleuthing, but they are not numerically strong enough have not the time and are not probably trained to obtain military intelligence. It is interesting to note that, in this respect, during the German war scare which became so acute in 1907-08, officers of the Corps of Guides received instructions from headquarters at Ottawa to keep their eyes open for Germans who might be nosing around trying to get information about the Dominion. As far as can be recalled only one man was under suspicion and he turned out to be an agent for a patent electric lamp.

The immigration rush to Canada for 1911 is on. The advance guard from England will arrive some time this week. Scouts have already put in an appearance to look over the ground. The Grand Trunk, the C. P. R., and the Cana-

dian Northern have all carried on an unprecedented campaign this winter to secure immigrants in Great Britain for their respective territories in Canada, and this is already showing its effect in the tremendous rush of bookings for all the boats coming to Canada this spring.

Women in Montreal have organized a movement of the betterment of the people and the observance of laws. These women state that the men are too busy with their commercial business to attend to this movement, and they intend to go ahead unaided. Ten women who have started this movement, all of whom are good housekeepers met at the house of Mrs. J. Clark Murray, 20 McTavish St., and after discussing the many nuisances they are subjected to throughout the year by the unnecessary ringing of door bells, decided to ring themselves into a band, and start a war upon the shopkeepers, and others who intrude their business in private homes, by bringing samples, printed slips or other things which the housekeepers claim are unnecessary.

### Coleman Notes

Carl Banesmer was in town from Lundbreck this week.

William Gray and William Wood left on Tuesday for Illinois.

Married.—At the Institutional church, on Saturday last, by the Rev. T. M. Murray, Paul Baran to Miss Ada Pristin.

Coleman is seeking aid from the provincial government for the removal of the bluff. We are anxious for them to quit bluffing us about the bluff.

G. Graham, representing Clark Bros. of Winnipeg, was a visitor in town on Sunday.

Pinecher Creek hockey team played Coleman on Friday evening last. The game was the most exciting one played in The Pass this season. White, Grosack and Simms did good work for the home team, while Charlie Graham proved that he is one of the coming hockey stars of this province. The game started about 8 o'clock and was interesting all through. The visiting team won by a score of 4-3. Pinecher Creek outplayed their opponents on every point of the game. Coleman can play fairly well but they cannot beat Pinecher Creek.

An attack of the grip is often followed by a persistent cough, which to many proves a great annoyance. Chamberlain's Cough Remedy has been extensively used and with good success for the relief and cure of this cough. Many cases have been cured after all other remedies had failed. Sold by dealers everywhere.

A few minutes delay in treating some cases of group, even the length of time it takes to go for a doctor often proves dangerous. The safest way is to keep Chamberlain's Cough Remedy in the house, and at the first indication of group give the child a dose. Pleasant to taste and always cures. Sold by dealers everywhere.

## Musings of a Country Merchant

Yes, remarked the country merchant, I certainly have a *snapp*. Wholesome houses and done every month and draw on me at night, but I send a bill to a farmer he comes swearing mad and quits trading at any store. While I am hard up for money many of those who are owing me are sending money in advance to mail order houses. If I contribute money to any cause people to think I am bidding for trade. If I don't, then I am a hog. Every day I am expected to dig up for everything that comes along, from a raft ticket to a church fund, by people who claim I ought to do this because they do part of their trading here, but our friends, R. Simpson and T. Eaton, neither buy tickets nor help the church fund, and yet they get the cash in advance business. If I sell a pair of pants I must treat the family to candy and cigars; if I buy a load of potatoes I must do the same. Customers who are able to pay hang on to their money, while I pay 10 per cent. at the bank to get ready cash. I have a big business during hard times and poor crops from people who are willing to trade with me, provided I can duplicate catalogue house prices and wait until harvest for money. My scales weigh too much when I sell sugar, and too little when I buy butter. I am a thief, a liar and a grafter. If I am a soft-soapy hypocrite, and if I don't I am a grump. Yes, I certainly have a *snapp*. And he looked over \$10,000 worth of accounts, all good, and wonders how he could raise \$350 to pay a sight draft to-morrow.

## 5,000 Facts About Canada

The 1911 edition of this indispensable collection of facts, called Canadian Facts, edited by Frank Yeigh, of Toronto, the well known lecturer and writer, and author of the new book, "Through the Heart of Canada," has been issued and is filled with fresh data of a most interesting and illuminating character. It is a marvel of condensation, presenting in small space striking figures relating to every phase and department of Canada's resources, trade and national life.

Its popularity and wide sale can hardly be understood, in fact, it is, as has been said, "worth its weight in Cobalt silver or Yukon gold." The booklet may be had from the leading newsdealers, or for 35 cents from the Canadian Facts Publishing Co., 667 Spadina Avenue, Toronto.

It troubled with indigestion, constipation, no appetite or feel bilious, give Chamberlain's Stomach and Liver Tablets a trial and you will be pleased with the result. These tablets invigorate the stomach and liver and strengthen the indigestion. Sold by dealers everywhere.

## DAME FASHION'S DECREES

WHEN a flouncing or narrow edge of embroidery is used to trim a gown it must not be gathered too full so as to hide the pattern or make the material hang thick.

Once and a quarter more than the space to be covered is sufficient for a full flounce. Flouncing can even take a trifle more, but not a heavy cambric design. The gathers should be done with two rows of stitches evenly spaced and the material "stretched" between the stitches to have the flounce hang even.

Large-headed designs do not iron well, being apt to pull out or a sharp-pointed iron will tear the hole larger. Long over-lying stitches will pull out easily. A heavy pattern is apt to pull out the foundation if handled roughly in the wash. All embroidery should be ironed on the wrong side on a folded bath towel to bring out the pattern and it needs very little starching. In cutting out the edge leave a trace of the plain material which will soon wear off and to cut it closer means cut threads that soon pull out the work.

Insertion edges must be evenly turned and laid flat, neither slackened or tightened; cutting the material out back of insertion shows of the design better. Applique figures require the edges to be closely sewed down, using fine cotton.

In machine stitching keep a loose tension and fine cotton for embroidery. Use too fine rather than too coarse an embroidery. At over-wash, sleeves, etc., require bound or French seams.

Sometimes a scalloped edge with a vine-like or running design above can be applied with a needle and thread, with excellent effect, cutting out the foundation close to the vine so as to disguise the application of it. Lace and embroidered motifs are used together partly overlaying the lace with the motif.

### Charlotte Corday Hat of Black Lace

Embroidery for ladies and children's dresses, coats, parts of costumes, trimmings, parasols, hats, etc., is now in the zenith of fashion and cannot be too much worn.

As to footgear the English woman this year has blossomed forth in very smart low shoes and colored stockings. Some of the mummy dresses being very short, feet and ankles are exposed to public view, so some black history has been more or less discarded and scarlet, old rose, cerise blue, smoke gray and even white stockings are worn.

Of course, the really smart thing is to match the French *corset* and *gloves* with the *stockings* and *shoes*. Some English women go their French sisters one better and exhibit remarkable contrasts.

Hand-painted stockings, slippers and gloves from France are much in favor. A lady recently took a French bride who wore satin slippers edged with Valenciennes lace on the toes of which were painted sprays of myrtle or clusters of orange blossoms, the same design being carried out on the gloves.

The Parisian always bravely dares convention in regard to the blending of colors and makes purples and pinks and yellows and pinks with sometimes beautiful effects which are very becoming to her creamy pallor. The English woman has made up her mind to do the same, and this season's gowns show French color schemes which may or may not suit her very different complexion.

As for jewelry, the English woman has gone gone mad. At the recent courts, at race meetings, small dinners and luncheons and bridge parties jewelry has been in evidence. Of course, at the courts this is not extraordinary, as when the king and queen receive all those invited make themselves as resplendent as possible, but this year it was noticed that the display of precious stones was more magnificent than ever, while indoors with morning gowns and outdoors with fur a rich profusion of jewelry was worn.

Long earrings still have a certain prestige. They seem to go with mummy dresses and turban collars. Cameos, discarded since early Victorian times, are again in vogue. Cameo brooch can be of shell or of the more costly ivory, and it can have belonged to a maternal grandparent or have been recently purchased, but it must be present in the jewelry.

Pendants of these ornaments in their original massive and florid settings are seen, while impossibly large cameos are set in bonnet boxes and hung from neck wear, so the idea does not often wither.

Angles are numerous in all styles, from plain gold to gem starred, and dozens are worn on each wrist.

It is always said, of course, that the craze for jewelry was imported by the American contingent in London, but if it was the English woman has certainly adopted it with as much facility as she has recently adopted the bizarre and extreme French styles which a few years ago would have aroused her disdain.

A wide border of wild goose done in satin stitch, Kensington outline and long and short stitch make a handsome portrait.

Drapery effects are progressing in dressy costumes, taking the form of real or simulated tunics, long full draperies, pannes, searlike folds, etc.

Black and white are attractively combined in many of the new jacket effects, the black usually taking the form of satin piping, jet buttons and tiny buckles.

Roman and Italian blankets are used partly as a decoration and partly as a necessity. They are obtainable in college colors. A lady recently adopted a black and white blanket at college said it proved the most useful article she had.

Often when studying the room would not be warm and she found the big blanket was very warm, so she often did it when studying.

Every girl likes to wear thin lingerie waists, and only the cost of having them laundered prevents the majority from wearing them constantly.

And yet, if a girl will give time to the task, such waists may be washed and ironed at home for comparatively little money.

Of course, tailored waists that require starching must be sent to the laundry, but such fabrics as madras and cotton crepe are not difficult to launder at home, because no chemicals which lessen the strength of the threads are used. In the average laundry the aim is, of course, to get best results with a minimum of time and labor, consequently chemicals for preserving the whiteness of the fabrics are substituted.

It goes without saying that sheer waists washed and ironed in a laundry will be injured still more than substituted fabrics, as for this reason alone girls should make the attempt at home cleaning.

For a trial at home laundering wash and iron a small waist. It requires no starch, and after a few washings the starched waist will be as good as new. For example, a girl discovers the knack of getting the laundry to do the best of her waists and to press the waists, besides a few minor points, all without injury to the garment being ironed.

Experimentation is the only way to get the best results. The iron sticks, "smut," or dirt apt to transfer themselves from iron to waist, and other ills often happen.

The first step in the laundering process is to soak the garment. If they can be in the bath over night so much the better, because then less rubbing will be needed. Into this bath put soda made from a good, white soap, that has been dissolved into jelly. A few drops of ammonia may be added to destroy any odor of perspiration.

Next morning the waists should be squeezed through the hands and moved up and down in the soda to remove the soil.

Then prepare a second bath the same as the first, using boxes instead of ammonia (this for whitening purposes). Squeeze as before. Soap must not be rubbed directly on the fabric because this thickens the threads and consequently the waist shrinks, besides losing the sheer effect of the goods.

Next morning the waists should be squeezed through the hands and moved up and down in the soda to remove the soil.

Then prepare a second bath the same as the first, using boxes instead of ammonia (this for whitening purposes). Squeeze as before. Soap must not be rubbed directly on the fabric because this thickens the threads and consequently the waist shrinks, besides losing the sheer effect of the goods.

# MAGIC BAKING POWDER

## Does not contain Alum

Canada will some day stop by legislation the use of alum in baking powder. Alum powders injure digestion. Great Britain already prohibits alum in foods.

Made in Canada

Be sure of purity—insist on MAGIC  
E. W. Gillett Co. Ltd. Toronto, Ont.

FREE COOK BOOK If you have not received a copy of Magic Cook Book, and immediate delivery on postal note and the valuable little book will be mailed free of charge.

MAGIC is better than any food law requires.

MAGIC insures healthful, wholesome food. Brings success to you in baking light, flaky biscuits, cake and pastry.

MAGIC is a medium priced baking powder and the only well-known one made in Canada that does NOT contain alum.

Full Pound Cans, 25c.

### UNITED STATES NEW INFANTRY EQUIPMENT

THE new equipment for the United States Infantry will prove a boon to the soldier in the field. This has been the study of the special army board for the several past months, and a practical test at field maneuvers by the soldiers equipped with the new outfit has thoroughly demonstrated its worth.

The equipment has been devised with every consideration of economy in cost and reduction in weight, and adds materially to the soldier's personal movements, while at the same time means have been adopted for relieving him of that part of the burden from which he needs to separate himself in the field.

The new equipment accomplishes a saving in weight in the burden of the foot soldier of ten pounds. Its principal feature is the pack, which consists of a roll of canvas worn vertically on the back of the soldier. This contains the blanket, poncho, ration, and a corporal and seven men, and containing the extra pair of shoes, a pair of slippers or gymnasium shoes (a new article), the extra blanket, and a combination "haversack" instead of the individual article. A new bayonet scabbard has been devised and will be carried on the pack, the idea being to take away from the body all dangling articles.

The soldier's blouse is to be abandoned, and in its place is suggested a moderately heavy sweater, to be made with an opening for chest exposure. It is claimed that this garment in connection with the short jacket will afford a better facility for marching than does the present uniform.

Another feature of the outfit is made up of the surplus kit, one for each equal of a corporal and seven men, and containing the extra pair of shoes, a pair of slippers or gymnasium shoes (a new article), the extra blanket, and a combination "haversack" instead of the individual article. A new bayonet scabbard has been devised and will be carried on the pack, the idea being to take away from the body all dangling articles.

the brilliancy of the trader's idea. Fashion rules the world. It is as strong in Africa as in America, and when those who stayed at home saw the travelers return in all the glory of this strange covering they felt behindhand and old-fashioned. Their desire to possess the latest things in hats became intense. They paid De Villiers a visit, and his stock no longer hung heavy upon his hands. The hats were soon sold.

### ADVISING THE PILOT

It is not often that the German Emperor allows himself to be snubbed by one of his own subjects, but an actual instance occurred last summer. His Majesty was on board the Hohenzollern, and approaching a certain German port on the North Sea, the imperial yacht took on a pilot, and this authority posted himself at the wheel.

Year Druggist Will Tell You  
Mullein, Epsom Salts, Balm, etc.  
Booths for Sale and for Rent  
Mullein, Epsom Salts, Balm, etc.

If one be troubled with corns and warts, he will find in Holloway's Corn Cure an application that will entirely relieve suffering.

The Emperor, who regards himself as a perfect master of steering, stationed himself in the vicinity of the pilot, and suggested giving him a hand at the wheel. The rough sea dog, not recognizing the Emperor, turned round with a snarl.

"Are you pilot, or am I?" he growled.

Amazed, Wilhelm II. retired crestfallen to his stateroom. But he thought better of it, and in a few minutes returned to the bridge, and in great humility laid a box of cigars beside the pilot, with the remark:

"Those are the pilot's!"

Protect the child from the ravages of worms by using Mother Graves' Worm Expeller. It is a standard remedy, and years of use have enhanced its reputation.

## Proper Lubrication

For gasoline and kerosene engines

# Standard Gas Engine Oil

Is the only oil you need.

It provides perfect lubrication under high temperatures without appreciable carbon deposits on rings or cylinders, and is

Steam Traction Engines and Steam Plants

It is equally good for the external bearings.

### Capitol Cylinder Oil

delivers more power, and makes the engine run better and longer with less wear and tear, because its friction-reducing properties are exactly fitted to the requirements of steam traction engines and steam plants.

### Mica Axle Grease

makes the wheel as nearly frictionless as possible and reduces the wear on axle and box. It ends axle troubles, saves energy in the horse, and when used on axles of traction engines economizes fuel and power.

### Granite Harvester Oil

insures better work from the new machine and lengthens the life of the old. Wherever bearings are loose or boxes worn it takes up the play and acts like a cushion. Changes of weather do not affect it.

If not at hand, write for descriptive circulars to

The Imperial Oil Company, Limited  
Ontario Agents: The Queen City Oil Co. Ltd.

## Happenings in and Around Frank

A. P. McCall came down from Red Deer on Saturday.

James Anderson arrived here from Victoria on Monday.

Mark Drumm went to Calgary on Tuesday on a business trip.

E. Heathcote, government mine inspector, came in town from Macleod on Monday.

Dr. J. J. Gillispie and A. N. Mowat, of Pincher Creek, spent the week end in Frank.

Mrs. A. Mannal who was visiting friends at Lundbreck last week returned home on Saturday.

FOR SALE—One Kootenay 6-hole Range with reservoir. Apply Mark Drumm, Frank. Telephone 67.

Jno. Simpson and E. J. Gunn, of Neepawa, Manitoba, arrived in town on Sunday. They spent Monday looking over the wonderful sights and beauties of this town and left for the East in the evening.

R. H. Merriman, president of Greeny Steel Works, Hamilton, spent Friday and Saturday last in town. While here he was looking over our vast coal properties and was favorably impressed with the possibilities of successfully conducting a large iron and steel works here. Mr. Merriman believes that our large iron properties possess valuable ore and can be easily developed.

FRANK, Alberta

One of all four concerns, is a prime mover in the present organization.

Mr. E. B. Greenshield is president of each of the companies, and a similarity of interests is also shown in the fact that the names of the Hon. Robert Mackay and Mr. H. A. Lovett, K. C., appear on the directorates and that Mr. Chas. Fergin, M. P., appears as manager or chief engineer in more than one instance. It is believed in financial circles that French capital is largely responsible for the new organization.

The connection between the amalgamation and the activity in Hillcrest Collieries stock is only a matter of surmise, but it might be found desirable to also include that concern. The buying began last Saturday at 39 for the common stock and 39 for the preferred. On Monday the common reached 47 and the preferred 91; but a subsequent reaction brought prices back to 42 for common and 30 for preferred.

The Hillcrest Collieries was promoted by Messrs. Charles Meredith & Company last March. Its properties are in the Crow's Nest Pass district. It was given authorized bonds of \$750,000, of which \$325,000 were issued; \$1,000,000 preferred seven per cent stock, of which \$705,750 was sold, and \$2,000,000 common stock, of which \$1,000,000 was sold.

The issue price of the Hillcrest was \$92.50 for the preferred, including a bonus of 40 per cent common stock, so that at present prices there is a good profit for the original subscribers.

THE STEAM BOILERS ACT

Notice To Steam Engineers.

Notice is hereby given that an examination will be held by the P. A. for the purpose of qualifying for certificates under the provisions of the Steam Boilers Act, 1906, and April 1st, A. I. Blais, Proprietor, Bellevue, Alberta, for the purpose of giving an examination to the Department or to the above named inspector, and must be properly filled out and delivered to the P. A. before the examination can be granted. The full examination will be discontinued. JOHN STOKES, Deputy Minister, Department of Public Works, Edmonton, Alberta.

"The objects of the consolidation," said one of the interests, is to bring about economies in management and to systematize production and distribution. The location of the properties is such as to furnish the groundwork of efficient and cheap distribution. The Lethbridge Collieries, situated near the American border, furnished a high-grade domestic coal which is readily marketable in the Northern States and throughout the southern part of the Northwest. The Western Coal & Coke Company, near the Crow's Nest Pass of the Canadian Pacific Railway, produces a steam and coking coal of the very highest quality. The St. Albert Collieries is at the door of Edmonton and the surrounding country in North Alberta, and will market a first class domestic coal. The Pacific Coal Fields Company owns immense areas off the Grand Trunk Pacific, which are readily available for the great demand for steam coal along the line of that railway and through the Northwest part of the West. There is coal in each of the areas for a generation to come and the quantity available at Yellowhead is believed to be equal in extent to any deposit in North America."

NERVOUS DEBILITY

Thousands of young and middle-aged men are annually swept to a premature grave through Nervous Debility, Excess and Blood Disease. If you have any of the following symptoms consult us before it is too late. Are you nervous and weak, despondent and gloomy, unable to perform your duties, with dizziness, headache, backache, kidney trouble, palpitation of the heart, breathless dreams and loss of sleep, incontinence of the bowels, loss of appetite, loss of energy, loss of vitality, loss of manhood, loss of power, loss of strength, loss of courage, loss of confidence, loss of hope, loss of faith, loss of love, loss of respect, loss of honor, loss of reputation, loss of position, loss of wealth, loss of health, loss of life.

YOU WILL BE A WRECK

Our New Method Treatment can cure you and make a man of you. Under its influence the brain becomes active, the blood purified, so that all pimples, blotches and ulcers disappear. The nerves become strong and steady, so that nervousness, excitability and despondency vanish, the eye becomes bright, the face full and clear, energy returns to the body and the moral, physical and mental systems are invigorated, all diseases cease—the more vital waste from the system. You feel quick and lighter but you of your hard faced debility. We will cure you or no pay.

EVERYTHING PRIVATE AND CONFIDENTIAL

Miners' hall on Monday evening last. A lengthy programme, consisting of chairman's remarks, recitations, instrumental and vocal selections, was well rendered before a large and well pleased audience. At 11 p.m. W. McGowan was called upon to auction the baskets. The bidding was fast and sometimes high. The two prizes were won by Mrs. James Burrows and Miss E. J. Kidd, both of Blairmore. The amount realized was \$102.

### Here and There

The hockey match scheduled to come off at Coleman on Wednesday between their home team and Macleod, was not played because of the late arrival of the local but will come off tonight (Thursday).

A head-on collision between a freight train and the Calgary local occurred at Macleod on Wednesday evening. No one was seriously injured but traffic was delayed for several hours. No. 211 arrived about two hours late.

On Tuesday next, the anniversary of the relief of Ladysmith will be commemorated by South African veterans. On February 28th, 1900 the most stubbornly contested siege in modern history came to an end and was the turning point in the struggle between Britain and Boer.

LIQUOR LICENSE ORDINANCE

Application For Transfer of Hotel License

Application has been made by Richard J. Harris, for consent to the transfer to himself of the license granted to James H. Cook, in respect to the Union Hotel, situated on lot 6, Block 11, Hillcrest, Alberta.

If consent is given, application will be considered by the Board of License Commissioners at a meeting to be held at Frank on Tuesday, March 2nd, 1911, at 10 o'clock A. M. DATED AT EDMONTON this 28th day of February, 1911. L. F. CLARRY, Deputy Attorney General.

The Monetary Times gives more complete information regarding the large Alberta mining deal referred to last week. Under a Montreal date line it publishes the following:

A flurry in the stock of the Hillcrest Collieries has taken place at the same time as the announcement of the formation of a company called the Canadian Coal & Coke Company, the authorized capital of which is \$15,000,000. This concern is taking over four coal properties in Alberta which were formed during the past few years. These companies were: The Western Coal and Coke Company, situated near Pincher Creek, Alta.; about six miles south of the Crow's Nest Pass line of the Canadian Pacific Railway. The company has an authorized capital of \$200,000 preference six per cent shares, of which \$131,580 was issued, and \$2,300,000 common stock, of which \$1,968,050 was issued. In addition to this, \$1,000,000 bonds, six per cent, were authorized and \$600,000 were issued.

The Lethbridge Collieries, situated near the same railway and about half a dozen miles from Lethbridge. The authorized capital is \$3,000,000, of which \$2,300,000 was issued. There were also issued \$625,000 six per cent bonds out of the authorized issue of \$750,000.

The Pacific Coal Fields, at Yellowhead, Alta., with an authorized capital of \$5,000,000, of which \$4,000,000 was issued, the bond issue being \$1,250,000, six per cent, of the authorized issue of \$2,000,000.

The St. Albert Collieries, situated within eight miles of Edmonton, and connected with that city by the Canadian Northern Railway, has a capital of \$750,000, and \$500,000 of bonds.

Mr. J. W. McConnell, of Meera, Johnson, McConnell & Allison, who was interested in the promo-
